

WLAN 11N 150M 4PORT AP/ROUTER 1T1R GGM W150R

MIMO Wireless 802.11n

Small & Compact

Remote and
web management

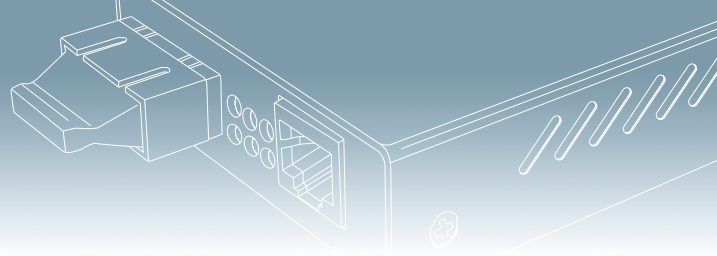

The **GGM W150R** is a Wireless Router conforms to MIMO Wireless-N (draft 802.11n) technology. It gives you the effective data rate. It gives you more effective signal and best throughput.

FUNCTION

- Supports Remote and Web management (HTTP)
- Support Firmware upgrades via Web interface
- Support upgrades without reconfiguration of the device
- TV over IP (IPTV)
- Security cameras
- Voice over IP telephony
- Audio and video streaming and transferring
- Shared files, printers and multi-player games

MAIN FEATURES

- Support VLAN
- Support MAC filtering
- Support bridge and router mode
- Support VPN, L2TP, PPTP
- Support DHCP server, client
- Support NAT, NAPT, DMZ
- Support IP QoS
- Support UPnP
- Support BSS and IBSS mode
- Support WMM, WMM-PS, Multiple SSID
- Support WDS, WPS
- Support a Username/Password authentication to GUI
- Support Packet filtering
- Prevent DoS & DDoS (Dynamic Denial of Services)
- Support PAP and CHAP
- Support SNTP

PRODUCT SPECIFICATIONS

RF CHAIN	1T1R	RADIO AND MODULATION TYPE	IEEE 802.11b DQPSK, DBPSK, DSSS, and CCK IEEE 802.11 g BPSK, QPSK, 16QAM, 64QAM IEEE 802.11n MCS0~MCS7, MCS32	STORAGE TEMPERATURE	-20°C ~ 60°C
UDP THROUGHPUT	90Mbps	TRANSMISSION DISTANCE	300 meters Outdoors, 100 meters Indoors coverage area	OPERATING HUMIDITY	10% ~ 85% Non-condensing
STANDARDS	Compatible with IEEE 802.11b/g, 802.11n draft 2.0	TRANSMISSION POWER	802.11b Typ. 18dBm@Normal Temp Range; 802.11g Typ. 15dBm@Normal Temp Range;	STORAGE HUMIDITY	5% ~ 90% Non-condensing
SECURITY	Support 64/128-bit WEP, 802.1x, WPA1/2, and WPA1/2-PSK for wireless security	OPERATING TEMPERATURE	0°C ~ 40°C	DIMENSIONS	90 x 135 x 16 mm (WxDxH)
FREQUENCY BAND	2.4 ~ 2.4835GHz			WARRANTY	12 Months
